IN THE MATTER OF  
BUDGET AMENDMENTS

A motion was made by Commissioner J.W. Terrell, Jr. and seconded by Commissioner Thomas Hockaday to combine duties of County payroll, the insurance program, and the personnel responsibilities with the duties of monitoring and receiving purchase orders and their payment. In discussion of this matter, it was noted that the County Auditor has conferred with the county's independent auditor's office and they believe that by moving the Treasurer's assistant into the Auditor's office the county can save almost \$15,000 annually. Due to a recent opening in the Auditor's office, it was recommended by the County Auditor that this move be instituted quickly. The movement of the clerk into the auditor's office will allow for a solid "check and balance system" in the county's financial system. Check signing duties will remain with the County Treasurer. The County Treasurer was called in to discuss the cost savings plan and wanted to make her comments part of the official record. Sandy Agan stated, "I don't agree. I don't want you to do it" and wanted to know, "What's changed?" Judge Flanagan responded that "the computers have made the change" which was why the computers were purchased in the first place, to save the taxpayers money. Sandy Agan said she felt the move was motivated on "personal" issues with the Court and again stated that she did not want the move made. She then left Commissioner's Court. Carl Johnson, County Auditor, stated that "from an auditor's perspective, the move is a smart management thing to do." After the discussion motion carried unanimously.

**IN THE MATTER OF  
SIGNING PAY ORDERS AND PAYING BILLS**

Motion was made by Commissioner Thomas E. Hockaday and seconded by Commissioner J. W. Terrell, Jr. to approve signing pay orders and paying bills. Motion carried unanimously.

# HAND-HELD FUMING WAND

**Here's your chance to get an early look at the newest breakthrough in crime-scene detection and preservation of latent fingerprints:**

The Lynn Peavey Company has been authorized to market the new Fingerprint Visualization System that was recently introduced by 3M. This new breakthrough is a cyanoacrylate (CA) or "Super Glue" vapor device -- the "Fuming Wand" -- that offers the following benefits:

- The Fuming Wand is a lightweight, hand-held unit designed to work *without* a fuming chamber;
- It permits fast, non-destructive, one-step processing of evidence *right at the crime scene*;
- There are no chemical solids, liquids, or dyes that could cause injury or property damage;
- The Fuming Wand is easy to use -- so patrol officers can now do "first-at-the-scene" evidence collection.

The Fuming Wand is the very latest step forward in the successful history of CA-vapor fuming. Our Free Video Report will provide you with background information about the Fuming Wand and the key role it will play in evidence collection. Don't pass up this exclusive free offer!
