Mr. Heidaker,

Now that the clearing of the ROW has begun on what used to be our property, it has become painfully obvious that some of the information given to us during our negotiations with PAS was patently false. We were told by two separate employees of PAS that some of the trees in the ROW in our front yard might be spared, especially those in the "no construction zone". Now, we have been told by a supervisor of the project that ALL trees in the ROW will be removed and destroyed. He said that this has been the case on the entire project.

It is difficult for us to understand how such a glaring misrepresentation could take place Mr. Heidaker, since you are not only the head of PAS, but also an assistant project manager of the "loop" project in Titus County. We have spoken to other ROW landowners impacted by this project and they too have said that they were misled about trees on the edge of the ROW. Our experience was obviously not an isolated incident.

We are certain that no reputable company would knowingly propagate this kind of false information. We would encourage you to immediately correct the policy of PAS employees misleading landowners about trees in the ROW that are located in the no construction zone. As you well know, there are still several pending negotiations with Titus county landowners in this ROW. They deserve to be treated honestly and fairly. It has raised false hopes for us and others that some trees would be spared. Your prompt attention to this matter would be appreciated.

Sincerely,
Eric and Barbara Bruechner

Summary of agenda item 5 regarding payment of ambulance fees to TRMC

I am going to make a motion today that the County pay TRMC for outstanding charges related to ambulance transport fees, some of which go back as far as October of 2005. On January 17th of this year, shortly after I came into office, this total was \$39,982.56

As of today, that total will be slightly higher due to additional transport fees incurred since January 17th. There may also be some reductions to this total when I ask the hospital for a final review to be sure that none of the charges were in excess of Medicare rates.

Ambulance charges are incurred when the County jail deems it appropriate to call for an ambulance in a given emergency situation. Based on my review of the dates and amounts of these individual charges, the volume of ambulance charges has been significantly reduced in the last year or two due to closer monitoring by our Jail.

Approximately a year and a half ago, a meeting was held with hospital administration and a couple of our commissioners. At that time it was agreed that if TRMC would reduce ambulance charges to Medicare rates, essentially the lowest price point, that the County would pay the ambulance transport charges. The hospital understood this to mean outstanding charges as well as future charges. At least one of our commissioners was of the opinion that this would apply to future charges and did not feel that outstanding charges were going to be paid.

I've had all of the meetings, discussions and phone calls on this subject that I'm going to have, both as a member of the hospital board, and as County Judge. It's time to vote on this matter.

I am confident that our current jail administration will only use the hospital ambulance service when it is absolutely necessary. I am also confident that our hospital will pursue all means of collection when the inmate is not indigent before billing the county. Titus Regional has not, nor will they bill the County when the inmate is indigent.

The hospital will not bill the county for medical care provided by the hospital, although from my discussion with Jeff Drummond, chief counsel for Titus Regional, the could.

After hearing all sides, I believe that it is very reasonable for the hospital to be paid by the county for ambulance charges at Medicare rates. I believe that the Jail staff will insure this is kept to a minimum if they know they may be paying for it. If the hospital is required to provide free ambulance service, the county might not be as careful with such services.

The bottom line is this is a taxpayer expense regardless of who pays for it. In the future, this arrangement should produce the least overall cost to the taxpayers. As for outstanding ambulance transport fees, I also believe that Hospital should be paid.

I would therefore make a motion that the County pay all outstanding and future non-indigent ambulance transport charges at Medicare rates once they have exhausted collection efforts from the inmate. I will request that TRMC make a final review of outstanding charges and confirm that no individual charges exceed Medicare rates.
