WAVE System Proposal for Titus County, Texas System Upgrade

May 13, 2013

Item	Description	Quantity	Cost	Total
1	WAVE Plus Control Panel with Email/Texting Module	1	\$7,500.00	\$7,500.00
2	Single Button Duress Alarm	50	\$125.00	\$6,250.00
3	Repeater	1	\$600.00	\$600.00
4	On Site Set-up and Training	1	\$750.00	\$750.00
5	Trade-in Allowance at 20%	1	(\$3,020.00)	(\$3,020.00)

** Please note that this quote does NOT include state and local taxes at applicable rates

Total \$12,080.00

Key Features

- Wireless receiver can handle 900MHz wireless spread spectrum technology
- Control panel includes hard wired inputs/outputs for integration with other systems
- System can send emails and text messages
- Virtual buttons can be added to computers within your network
- External antenna for maximum radio distance
- Control panel includes touch screen for programming
- Includes backup battery
- Control panel is locked with a key for security
- Two year limited warranty standard with all WAVE systems
- UHF/VHF radio is supplied with WAVE systems as standard
- Customer must provide a radio for each control panel if 800 MHz or any other non-standard frequencies are specified
- This quote is valid for six months from the issue date
- SecureTech's standard terms and conditions apply

Accepted By: _____

Date: _____

The WAVE Wireless Instant Notification System

Wave Plus System Features

<p>The WAVE Plus has capacity for up to 10,000 zones each with a unique alarm message. Multiple sensors can be assigned to each zone.</p>	<p>It is easy to add sensors, change messages or update the configuration of the WAVE Plus using the touch screen on the front of the control panel.</p>
<p>Standard wireless sensors include panic buttons, door contacts, tilt sensors, temperature monitors and motion detectors</p> <p>Specialized wireless sensors such as flush monitors, pressure mats and trip beams are available. The WAVE can also be integrated with magnetic locks to provide notification of unauthorized egress.</p>	<p>Alarm notifications can be simultaneously transmitted over up to four radios. Emails, text messages, contact closures and/or phone calls can also be triggered by the WAVE.</p> <p>Each zone can be configured individually. Security alarms can be transmitted over a law enforcement frequency while building automation alarms are sent over the facility department's frequency.</p>
<p>The WAVE Plus can be integrated with other security, production and building automation systems. Voice announcement of alarms can be added to access control, hard-wired panic buttons, CCTV, fire alarm, back-up generator, elevator, escalator, AED, and other systems.</p>	<p>The WAVE Plus is compatible with VHF, UHF, 800 MHz or any other frequency, including digital or encrypted.</p>
<p>Certification of compliance with UL standards will be obtained.</p>	<p>The WAVE Plus has a courtesy hold-off and will wait for a clear-channel before broadcasting alarms over a radio network.</p>
<p>All wireless sensors are fully supervised to ensure reliability. Low battery and missed-check-in supervisory alarms can be sent to appropriate personnel by email or text message.</p>	<p>Alarm messages can be repeated multiple times with a set delay between them.</p>
<p>The WAVE Plus can generate printable alarm history reports and status reports.</p>	<p>Alarm notifications for specified zones can be scheduled to be on or off at certain hours of the day.</p>
<p>The WAVE Plus includes a battery backup which will keep the system functioning in the event of a power failure.</p>	<p>Virtual panic buttons can be installed on MS/Windows computers within a local area network so that all computers within a network can transmit panic alarms</p>
<p>The WAVE Plus can be configured to broadcast a start-up or shut-down message when the system is armed or disarmed.</p>	<p>Alarms can be configured to require acknowledgement on the system. If the alarm is not acknowledged within the set time, it will repeat and escalate by transmitting an alarm message to additional devices, if needed.</p>
<p>A Portable WAVE Plus system is available for temporary or covert deployment.</p>	<p>A 2 year, extendable manufacturer's warranty is provided with new systems.</p>

The WAVE Wireless Instant Notification System

Strengthen Your Court Security with SecureTech

"Emergency in Courtroom One!"

System Features:

- Transmits unique, detailed, customized messages to all hand-held radios and base stations in the radio network
- Messages are easily added or changed by end users
- Includes hard wired input and output relays which can be assigned to zones to trigger other devices
- Can send emails and/or text messages
- Compatible with a wide variety of sensors, including panic buttons, tilt switches, door/window contacts and motion detectors
- Sensors can be scheduled to be on or off during specified hours based on a customized schedule
- Compatible with VHF, UHF, 800 MHz or any other commercially available frequency
- Battery backup included
- Two year warranty provided with all new systems

***Add wireless panic buttons
to your security system
and get instant, pinpointed
notification of emergencies***

*We have over 2,000 satisfied
customers nationwide!*
