RE: County Attorney's Office File Server

Dear Commissioner's Court,

I recently upgraded my personal office file server and am donating my old one to the county. The cost of this file server is approximately \$600.00. I am requesting the approval to purchase drives for the server. When I upgraded, the old drives were transferred to my new server. As a result the donated server has no drives. Having a file server for my office will further enhance my ability to be a paperless office, making the County Attorney's Office more efficient. Kabro recommends we purchase 5 drives fully utilizing the file server. In order for the backup system to work, 3 drives must be purchased. Kabro suggest we purchase 2 TB drives. Currently, I do not need this much capacity, but it is my understanding from Kabro that it is not that much of a cost difference to utilize 2 TB drives over 1 TB. We can also get by with three drives, but purchasing 5 will not require us to come back requesting more down the road.

Kaybro has found the required drives for us and the following is the purchase cost that we would like to get approved:

5 - 2-TB drives at \$165.00 each = \$825.00

Sincerely yours,

A handwritten signature in black ink, appearing to read "J. Mark Cobern". The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.

John Mark Cobern  
County Attorney
