

What is the Northeast Texas Child Advocacy Center?

The NETCAC is a nonprofit 501 c-3 organization that offers a safe child-friendly environment to children between the ages of 2-17 who allegedly have been sexually or severely physically abused or have been a witness to a violent crime. The children who come to the NETCAC are allowed to tell their stories in a non-leading way to a trained forensic interviewer rather than having to repeat it multiple times to multiple agencies involved in the investigation and prosecution, therefore reducing the trauma to the child.

NETCAC is dedicated
to the protection of abused children
through the age of 17 who live in the 8
counties we serve.

Since opening its doors in March of

Why are they involved?

Child victims of abuse need the
careful attention of professionals
trained to address their special needs.
In the past, each victim seeking help
faced multiple contacts with different
community professionals, creating a
maze of confusion for the child and
family.

CACs have changed all that. We
are a part of a nationwide effort to
reduce the trauma so children are not
re-victimized by the system designed
to protect them. With the support of
the community, the CAC enables the
child to come to one place for safety,
protection, and justice instead of
going from agency to agency.
