TURNKEY'S INMATE KIOSK

- Rounded, laser cut steel casing encloses a durable touch screen unit.
- A full color screen with pictures, the kiosk is multilingual capable to eliminate language and literacy barriers.
- Real-time transactions that require zero involvement from jail staff.
- Go paperless with Automated Inmate Kites.
- Video Visitation ready.
- Built and maintained by TKC.

What makes TKC the best choice for your county?

1. **Name Brand Products:** Name brand products will ALWAYS outsell generic products. Generic products are the staple of our competitors; while it helps their bottom line it, doesn't produce as much commissary revenue for you.
2. **More Points of Sale:** TKC pioneered the use of the inmate kiosk in 2003. Kiosks will be placed in all housing units from day one for maximum potential. Given our many warehouses throughout the country, we can deliver more frequently.
3. **Our Internet Portal and Marketing:** Nearly 70% of funds deposited in to our system are done on-line. TKC aggressively gathers data from inmates' family and friends and markets to them, unlike anyone else.
4. **Most Economic Gain:** Through ALL of our products, we provide the MOST avenues for your county to earn money. Commissary, Video Visitation, Phone Integration, Inmate E-Mail and SMS plus improved employee efficiency all impact your bottom line revenue, productivity and morale.
5. **Performance:** Our systems work. We monitor our kiosks all day, every day and have strict guidelines set in place to maximize our performance. *Ask about our 99.8% up-time!*

TURNKEYCORRECTIONS.COM

TurnKey Corrections serves jails in over 20 states with 11,000 inmates and growing. TKC owns all aspects of the business from technology, to kiosk manufacturing and fulfillment. PROVEN RESULTS AND SOLUTIONS

TurnKey Corrections gives your facility a custom solution that meets your philosophies and practices. We are uniquely able to do this because we develop and own all software code as well as maintain and control every aspect of our system. TKC can provide your facility with solutions that impact all facets of your jail operations. Got a problem? We have a solution.

INCREASE YOUR REVENUE

EXPONENTIAL REVENUE-MAKING POTENTIAL

In January of 2013 Inmate Email was a relatively new feature. Eight facilities had begun using this revenue maker and inmates and web users sent approximately 9,000 emails a month.

Now in 2016, 90% of facilities use this feature with inmates sending approximately **185,000** emails each month.

INMATE E-MAIL & TEXT-TO-EMAIL for outside users is the fastest growing revenue maker for TKC facilities. This feature allows for greater jail security while turning a significant expense into a reliable revenue source.

- All emails are stored indefinitely, exportable, and fully admissible in a court of law.
- Review emails or pass them straight through to inmates.
- Emails can be scored and flagged for inappropriate words.
- Inmates have the ability to originate or reply to messages.
- Indigent programs available providing additional savings.
- Free arrest notification allows inmates to enter email addresses to notify family and friends of their incarceration. Proven to lower phone calls to the facility.
- Reduction in staff time handling phone, mail, etc.
- Ask us about Picture Mail!

MP3 & MUSIC

- Corrections-grade MP3 player downloads music directly through the kiosk in the housing units
- Full music library with thousands of songs
- Music restrictions to remove inappropriate language available
- Additional revenue stream for your facility

VIDEO VISITATION

provides a secure yet convenient and efficient means for inmates to visit with friends and family members from either home or on-site. Fully integrated into the TurnKey Inmate Kiosk, this feature dramatically increase accessibility for inmates while improving security for jail staff. **TKC offers video visitation at a industry low rate of \$0.39/minute while still providing you increased revenue.**

- On & off-site visitation options
- TKC monitors video visitation daily
- Fully recorded with the ability to watch and download real-time or later
- Facilities are able to watch, listen, stop and restrict visits
- Real-time notifications of inmate visits to law enforcement
- Web-based provides better reliability and easier service and maintenance
- Exportable and fully admissible in a court of law
- Requires a strong Internet connection to work effectively

HOW IT WORKS:

Set visitor limits as you see fit:

- Require users to register by taking a photo of themselves and their identification cards, providing your jail with the critical data to perform a background check.
- Your staff will be able to approve or deny as deemed necessary.
- Set blanket approval letting outside users visit instantly after creating an approved account.

COMMISSARY & VENDING FEATURES:

- All orders are placed with zero involvement of your staff
- Inmates order all commissary offerings directly from the kiosks, located in the housing units
- Account history allows inmates to track their own fund usage
- Kiosks are multi-lingual and display images for commissary product selection
- Limits can be set by dollar amount or by product to prevent hoarding
- Privileges can be revoked at any time if abuse or misbehavior occurs
- 24/7 access grows revenue as much as 300% compared to brown bag programs
- Ask about our additional vending machine solution

STREAMLINE YOUR FACILITY

Increase staff efficiency & allow them to focus on the job with these time saving features.

ACCOUNTING MADE SIMPLE:

As part of our solution, TurnKey will take those hours of your day dedicated to counting and securing cash and reduce it to a 20 minute weekly activity. Eliminate the possibility of human error and stop inmate's from asking about their funds.

- Money intake units automate cash counting, detect counterfeits and secure all bills in one location
- Interface instantly with our software and provide real-time deposits and balances
- GAAP-accredited accounting system that tracks every cash management function within the jail.
- Streamlined booking process that makes intake and release a quick and easy process
- Ability to refund trust accounts onto a debit card (release with funds 24/7/365)
- Pay vendors directly using our software
- Order jail supplies
- Assess site charges for inmate - set specific fees such as medical visits, booking, etc.

INMATE LAW LIBRARY WE CAN INTEGRATE WITH YOUR CHOSEN PROVIDER

Create a law library for your facility that requires:

Zero movement of inmates
&
No staff involvement

**Ask about interfacing with a law library of your choice directly on the kiosk such as FastCase or West Law.*

Accelerated legal research.

WESTLAW™

INDIGENT SUPPLY MANAGEMENT:

Eliminate the hassle of tracking indigent status and supply tracking. Our software will track, alert and monitor indigent supplies ordering, thus reducing staff involvement and decreasing supply waste and abuse.

AUTOMATED MESSAGING AND KITES

provide your jail a “green” approach to inter-facility communication. Our industry-leading software streamlines all of your previous paper documents into one automated system.

- Ability to customize all kites, medical requests, grievances forms, etc.
- Your staff can respond directly to inmates or set up automatic replies.
- Maintain communication records.
- Route requests directly to the appropriate correctional staff.
- Customizable booking process including PREA acknowledgment.

How does going paperless enhance your facility?

- Reducing Printing Costs
- Increased Efficiency
- Eliminate Waste
- Fully Tracked/Store System
- Increased Accountability
- Safety
