TEXAS A&M AGRILIFE EXTENSION

**COUNTY EXTENSION OFFICE
1708 N Industrial Blvd
903-572-5201**

**CYPRESS BASIN
MASTER GARDENERS**

To whom it may concern;

On behalf of the Cypress Basin Master Gardeners (CBMG), I am asking that you might review this material and please consider our request for funds to purchase a sign for the Titus County Extension Office.

Our organization has a lot of pride in our county and our Extension office. We have landscaped a lot of the property surrounding the office. If you have not been by to enjoy our beautiful gardens, test plots and nature trail, I hope that you do.

Texas A&M has selected us to do research for Earth Kind varieties of landscaping plants, roses, and grape and muscadine varieties.

We take pride in the fact that our Master Gardens are promoted as a tourist attraction for Mt Pleasant in the Texas State Travel Guide. Our Gardens also provide horticultural education for folks in the community, demonstrating plants for Texas landscapes, methods of composting and raised bed construction, to name a few items.

Titus County is very blessed to have wonderful Extension Agents, Kenny and Lou Ann Rollins. They are always willing and very helpful to anyone in the community. We are also very lucky to have such a great facility. We don't take it for granted as we are aware that few counties have great Extension agents and a great building in which to hold their meetings.

CBMG is preparing the pole for the sign by removing the rust and painting.

If we can answer any question feel free to call us. Please do take the opportunity to come by and check out what we have done. We have our work days on Wednesdays 8-10. We will be more than happy to give you a tour of our gardens and our nature trail.

Rhonda Leshar

Treasurer CBMG
