Saw where you all were possibly considering a committee to assist with hiring a Road Engineer. I would be interested and willing to assist by serving on the committee or anything else you all might need. I think I could be of assistance with 20+ years of engineering roads, drainage, etc. Just let me know if you need me for ANYTHING! Maybe even do lunch one day to discuss if you are interested. No hard feelings if you don't need or use me, I promise!

Subject: Road Engineer AdHoc Committee

Gentlemen,

I noticed in the newspaper the County may form a committee of a few folks to review resumes and interview for a County Engineer. If you need a hand in this, I would be happy to volunteer. Just an offer, if you've already got folks then no worries.

In my background with municipal, state, and federal transportation planning and transportation project management, I have had the opportunity to interact and work directly with a number of Professional Engineers on road, highway, freeway, and other transportation projects. Additionally, having a background in Human Resources, I am familiar with credential review and interviewing. My personal interest as a taxpayer and citizen highly involved in the development process is to see that we get the right person for Titus County.

Have a great week!
