DATE: February 5, 2018

SUBJECT: Installation of door access lock, remote entry control, video and audio recording of people entering Juvenile Probation Offices.

SCOPE OF WORK: Install a door strike and intercom control with audio and video, so that Juvenile Probation Personnel can grant access to individuals into the offices. Install camera with microphone so that Probation Personnel can see people wishing to gain entry and converse with them before access is granted. All conversations and video will be recorded on the DVR on the first floor of the Courthouse as well as on an SD card inside the intercom master. Also install keypad for Probation officers.

1. Install camera and microphone to view and hear people at the Juvenile Probation door.
2. Run wiring from forth floor to DVR on first floor of courthouse and program camera and microphone in recording schedule.
3. Install Hands Free Two-Way Door Intercom System with door release control. This system also can see people standing at the door from the desk console. It has two way audio and records entry activity onto an SD card.
4. Mount electronic strike to lock and unlock door remotely from secretary's desk.
5. Install keypad on the outside of the door, so that authorized personnel can gain entrance without a key.

The cost of both these projects would be \$2454.00 in material and \$1400.00 in labor for a total of \$3,854.00.

**Supply a one-year parts and labor warranty on the installed equipment. All warranties exclude lightning, power surges, brown outs, other acts of God, and customer/employee abuse or neglect.**

Thank you for the opportunity to bid on this improvement to your facility.
