

Information that the TAX PAYERS and the other county employees need to know.

The County has had 1 mechanic and one helper for years and years. The mechanic helper also did the tires for the county equipment and the sheriffs vehicles. He also drove the Tractor Trailer and haul material for all the Precincts.

The 2018 budget beginning in October 1, 2017 we now have 2 mechanics and each mechanic received a "25% percent" increase in pay. From approximately \$20.00 per hour to \$25.00, the other county employees received 2 percent increase in salary.

The mechanics are now asking for the TAX PAYERS to furnish them uniforms, and asking to pay a vender to do their work on tires.

The taxpayers need to know that the mechanics each make a salary of \$52,000.00 per year, plus health insurance that cost the TAX PAYERS \$10,000?, and a retirement plan that cost the TAXPAYERS another \$5824.00. Matching FICA of \$3224.00 and Medicare \$754.00.

The salary of \$52,000.00 is more than most of the elected officials of Titus County.

TOTAL COST TO THE TAX PAYERS OF \$71,802.00 for each Mechanic.

Now they are asking the TAXPAYERS for more!
