THIS AGREEMENT is made by and between the State of Texas, acting by and through the Texas Department of Transportation, called the "State", and _____ Titus _____ County, acting by and through its duly authorized officials, called the "County."

WITNESSETH

WHEREAS, Transportation Code, Chapter 256, Subchapter C allows for the Texas Department of Transportation to make grants to counties for transportation infrastructure projects located in areas of the state affected by increased oil and gas production; and

WHEREAS, The County has submitted its application for the Grant funding from the State and its application was approved; and

WHEREAS, state law requires counties to meet certain contract standards relating to the management and administration of State funds; and

WHEREAS, the Governing Body of the County has approved entering into this agreement by resolution or ordinance which is attached to and made a part of this agreement as Attachment A; and

NOW THEREFORE, the State and the County agree as follows:

AGREEMENT

- 1. Agreement Period.** This agreement becomes effective when signed by the last party whose signing makes the agreement fully executed. This agreement shall remain in effect until the Projects are completed or unless terminated as provided below.
- 2. Scope of Work.** The County shall complete the transportation infrastructure projects as proposed in its List of Transportation Infrastructure Projects defined in 3. below. The County shall place the transportation infrastructure projects on the county road system.
- 3. List of Transportation Infrastructure Projects.** The County is responsible to review the list of projects listed on its previously submitted application for a grant from the fund and create a List of Transportation Infrastructure Projects prioritizing its choice of projects which can be performed with the grant amount awarded to the County by the State. Within thirty calendar days after final execution of this agreement, the County shall submit to the State this List of Transportation Infrastructure Projects (in a format specified by the State). This List of Transportation Infrastructure Projects shall include an estimated month and year of starting construction and completing construction for each funded project including the estimated project cost for each project. During the term of this agreement, updates to the List of Transportation Infrastructure Projects may be made by the County. Updates can include changes in priority, changes in estimated cost, changes in month or year of starting or

completing construction, or adding or deleting projects. Any proposed new projects shall include the same information as was required for projects submitted as part of the application for a grant from the fund. Updated List of Transportation Infrastructure Projects or a statement of no material change to the previously submitted list shall be submitted to the State no less than semi-annually. Any update to the List of Transportation Infrastructure Projects requires written concurrence from the State to the County.

4. Project Sources, Uses of Funds, and Reimbursement.

- a. The State has authorized the total amount of grant award from the fund as shown in Attachment B, Amount of Grant Award and Funding Commitments, which is attached to this agreement. The expected cash contributions from the State, the County, or other parties are shown in Attachment B. The State will reimburse only for allowable project costs for this program in accordance with 43 TAC § 15.192. The County must be in compliance with the requirements of this agreement to receive reimbursement of project costs.
- b. The County shall submit monthly billing statements or a statement that no construction or maintenance work was performed during the previous month, in accordance with procedures defined by the State, accompanied by a certification of work performed during the previous month. Along with the billing statements submitted by the County, it shall submit copies of all paid invoices and/or force account documentation. Within thirty (30) days of receipt of a complete billing statement and supporting documentation, the State will reimburse the County.
- c. The County shall not commence construction of a funded transportation infrastructure project prior to receipt of written approval from the State in accordance with procedures defined by the State.
- d. If the County commences performance on a transportation infrastructure project but fails to complete the project, the State may seek reimbursement of all money received by the County for that individual transportation infrastructure project.
- e. For each transportation infrastructure project located on the State highway system, the County shall contribute to the State (from the amount awarded to the County from the fund and the County's matching funds) an amount equal to the allowable costs incurred by the State for that project, such as inspection of the project and any other indirect State costs.
- f. The County may submit in writing to the State a proposed amendment during the term of this agreement changing the order of projects on its List of Transportation Infrastructure Projects or identifying additional project(s) or extended limits on an approved project that contains all information required by rule for that project. If funds are available within the amount awarded to the County, the State may execute the proposed amendment allowing the County to use the available funds in the revised order, for the additional project(s), or for extended limits on an approved project in the County.
- g. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this agreement or indirectly through a subcontract under this agreement. Acceptance of funds directly under this agreement or indirectly through a subcontract under this agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit

or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

5. Project Responsibilities. The County is responsible for all aspects of the work constituting this Project or projects appearing on the list provided by the County unless otherwise indicated in this agreement. In order to obtain reimbursement for eligible expenses from the State, the County shall certify to the State in accordance with procedures defined by the State that it has complied with all program requirements and applicable federal, state, and local laws and regulations.

6. Final Inspection. The County shall perform final inspection and acceptance of each transportation infrastructure project when it is complete. 11. Compliance with Texas Accessibility Standards and ADA. The County shall ensure that the plans for and the construction of the transportation infrastructure projects subject to this agreement are in compliance with the Texas Accessibility Standards (TAS) issued by the Texas Department of Licensing and Regulation, under the Texas Government Code, Chapter

469, Elimination of Architectural Barriers. The TAS establishes minimum accessibility requirements to be consistent with minimum accessibility requirements of the Americans with Disabilities Act (42 U.S.C. Section 12101 et seq.).
