PURPOSE & OBJECTIVES

The purpose of this proposal is to meet the requirements of the local government code with a depository that is responsive to the County's money matters and allows the County to maximize its investment earnings while providing excellent service.

The primary objectives are:

- 1) To solicit comparisons of market charges for the banking services to be provided;
- 2) To maximize the investment earnings on account balances in order to be prudent and effective custodians of the financial resources of Titus County;
- 3) To be the beneficiary of excellent customer service and to work with a depository bank that is customer oriented and attentive to the needs of Titus County;
- 4) To fairly compensate the depository bank for services provided subject to competitive forces in the market place;
- 5) To allow the Titus County Commissioners Court to have sufficient information to select the best well qualified applicant that offers the most favorable terms and conditions for the handling of County funds at the sole discretion of Commissioners Court.

This RFA is issued in compliance with County Purchasing Act, Section 262. The specific statutes governing these banking services sought are Local Government Code Sections 116 and 117 as well as Government Code Chapter 2256 (where applicable) and Government Code Chapter 2257. Further, the Titus County Investment Policy is attached which details the local requirements for some of these services.

CONTRACT PERIOD

The contract period shall be a four year period beginning July 16, 2021 and thereafter until a successor depository shall have been duly selected and qualified according to state law. After two years into the new depository contract, the county is allowed to establish on the basis of negotiations with the bank, the new interest rates and financial terms of the contract that will take effect during the final two years of the 4 year contract. Further, the 4 year contract may also be extended for a period of 2 years with new interest rates and financial terms being negotiated at that time resulting in the opportunity for a 6 year contract with interest rates and financial terms negotiated every two years. These options are available if:

- 1) The new financial terms do not increase the costs to the County by more than 10 percent; and
- 2) The County will have the option to choose to use the variable interest rate option or fixed interest rate options proposed by the bank.

If after the term of this contract expires, and a depository has not been duly selected and qualified according to state laws, this contract shall be automatically extended up to 90 days if the County is actively proceeding with bidding or rebidding process, but cannot finalize the process by the end of the contract period. The depository bank shall, upon termination of this contract, cooperate with the new bank for transfer funds. Transfer of funds will commence at such time as the successful applicant has provided the County with all required forms and supplies necessary to insure uninterrupted day-to-day operations.

SAFEKEEPING

Due to the fact that the tax assessor has increased deposits during the period from October through February of each year, it is imperative that the amounts on deposit are monitored daily and additional securities, if needed, are pledged immediately.

The safekeeping portion of the agreement shall support the County's right to collateral in case of default, bankruptcy or closing and shall establish a perfected security interest in compliance with federal and state regulations, including:

- 1) The agreement must be in writing;
- 2) The agreement must be executed by depository and the County contemporaneously with acquisition of the asset;
- 3) The agreement must be approved by the board of directors or the loan committee of the Depository; and
- 4) The agreement must be part of the depository's "official record" continuously since its execution.

EVALUATION CRITERIA

The submitted applications shall be reviewed based on the following criteria:

- Bank's past and prospective financial strength
- Ability to perform the requested services
- Best value in terms of service and cost
- Interest rates on deposits
- Electronic bank services offered
- Public funds deposits and experience
- Local presence and convenience
- Cost of switching depositories

Negotiations may be conducted with responsible applicants whose submitted application is determined to be reasonably anticipated of possibly being selected for award. For example, banks unable to provide appropriate collateral may not be considered. The County will consider the availability of services and cost of those services as well as the earnings potential under the proposed contract. All of these elements combine for the evaluation of the applications. The award will not necessarily be made to the banking institution submitting the lowest price proposal. The County will select the institution that submits the best, most responsive overall application to satisfy the needs of Titus County as determined solely by the Commissioners' Court and reserves the right to waive any technicalities in the best interest of Titus County. The County reserves the right to designate more than one depository and to apportion the County's funds between such depositories.

TITUS COUNTY INVESTMENT POLICY

I. INVESTMENT AUTHORITY AND SCOPE OF POLICY

General:

This policy serves to satisfy the statutory requirement of the Local Government Code 116.112 and Government Code Chapter 2256 to define and adopt a formal investment policy. This policy will be reviewed and adopted annually according to Government Code 2256.005(E).

Funds Included:

This investment policy applies to all financial assets of all funds of Titus County, Texas at the present time and any funds to be created in the future and any other funds held in custody by the County Treasurer, unless expressly prohibited by law or unless it is in contravention of any depository contract between Titus County and any depository bank.

County's Investment Officer:

The County Investment Officer(s), under the direction of the Titus County Commissioners' Court, may invest county funds that are not immediately required to pay obligations of the County. The Commissioners' Court shall designate by resolution one or more officers or employees to serve as the investment officer and may designate an investment committee.

If the investment officer has a personal business relationship - or is related within the second degree by affinity or consanguinity - to an entity seeking to sell an investment to the county, the investment officer must file a statement disclosing that relationship with the Texas Ethics Commission and with Commissioners' Court.

II. INVESTMENT OBJECTIVES

General:

Funds of the County will be invested in accordance with federal and state laws and this investment policy. The County will invest according to the investment strategies for each fund as they are adopted by Commissioners Court. See Investment Strategies section of this document.

Safety:

Titus County is concerned about the return of its principal; therefore, safety of principal is the primary objective in any investment transaction.

Liquidity:

The County's investment portfolio must be structured in conformance with an asset/liability plan which provides for the liquidity necessary to pay obligations as they become due.

Diversification:

It will be the policy of Titus County to diversify its portfolio to manage the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer or a specific class of investments. Commissioners' Court recognizes that in a diversified portfolio, occasional measured losses are inevitable, and must be considered within the context of the overall portfolio's investment.

Yield:

It will be the objective of Titus County to earn the maximum rate of return allowed on its investments within the policies imposed by its safety and liquidity objectives, investment strategies for each fund and all state and federal laws governing investment of public funds.

Maturity:

The investment policy must state the maximum stated maturity of any individual investment. For pooled funds, the policy must state the maximum average dollar-weighted maturity allowed. Portfolio maturities will be structured to meet the obligations of the County first and then to achieve the highest rate of return. When the County has funds that will not be needed to meet current year obligations, maturity restraints will be imposed based upon the investment strategy for each fund. The maximum allowable stated maturity of any individual investment owned by the County is three years.

Quality and Capability of Investment Management:

It is the County's policy to provide training required by the Public Funds Investment Act and other periodic training in investments for the County Investment Officer through courses and seminars offered by professional organizations and associations in order to insure the quality and capability of the County Investment Officer in making investment decisions.

Monitoring Rating Changes

An investment that requires a minimum rating under these statutes will be monitored by the investment officers with the possible assistance of brokers and banking institutions. The County shall take all

prudent measures that are consistent with its investment policy to liquidate an investment that does not have a minimum rating.

III. INVESTMENT STRATEGIES

The County maintains controls over three types of funds: operating funds, debt service funds, and capital project funds. For each of these funds, the primary objectives for the investment strategy of the County are as follows:

1. Understanding of the suitability of the investment to financial requirements of the County;
2. Preservation and safety of principal;
3. Liquidity;
4. Marketability of the investment if the need arises to liquidate the investment before maturity;
5. Diversification of the investment portfolio;
6. Yield; and
7. Maturity restrictions.

For operating funds and pooled funds, the County's investment strategy shall include the above prioritized objectives along with emphasis on assuring that the anticipated cash flows are matched with the investment liquidity. The secondary objective is to create a portfolio structure which will experience limited volatility during economic cycles. This may be accomplished by purchasing high quality, short to medium term securities, which will complement each other in a laddered or barbell maturity structure based on anticipated cash flows.

For debt service funds and capital project funds, the County's investment strategy shall include the above prioritized objectives with emphasis on matching the investment maturities with the anticipated due dates of obligations.

In accordance with the Public Funds Investment Act, investment strategies will be reviewed and adopted at least annually.

IV. INVESTMENT COMMITTEE

The Commissioners Court may appoint a committee to include the county treasurer, county auditor, and county judge and if so desired, a member of the commissioners' court to serve in an advisory capacity. See Exhibit A. The county auditor will serve as the chairperson of such committee. In making reports and recommendations to the court, the committee shall be governed by the following guidelines:
