THIS IS ADDENDUM #1, DATED 8-3-2022, FOR THE ROAD MATERIALS/ROAD OILS BID # 2022-004, DEADLINE AUGUST 15, 2022 AT 4:30 PM.

#### FUEL SURCHARGE

Bids should reflect the cost of the materials with the fuel charge listed separately. The cost of fuel will be based on the US Energy Information Administration Gulf Coast (PADD3) Gasoline and Diesel Retail Prices located at [www.eia.gov/dnav](http://www.eia.gov/dnav). The initial fuel charge will be based on the value as of July 25, 2022 which is the date closest to the initial advertising for these products. After July 25, 2022, the fuel charge will be adjusted up or down based on the information from this website. The prices are adjusted weekly on Monday.

#### RECORDKEEPING FOR EQUAL EMPLOYMENT OPPORTUNITY

As this is not a "construction contract" as such, it would not be applicable as far as maintaining records. Titus County is hopeful that the vendor would still comply with EEOc regulations. In response to the wording on page 14, item (8), it recommended that the vendor send a copy of the general conditions and the EEOC Guidelines for Contractors to their sub-contractors.

#### LIQUIDATED DAMAGES

The statement on page 15 should now read: Since the actual damages for any delay under this contract are impossible to determine, the Contractor shall be liable for and shall pay to the County the sum of One Hundred (\$100.00) as fixed, agreed and liquidated damages for each delay of more than 3 work days from the date the Commissioner requested pick up or delivery and the bidder agreed to provide said product if the product is not available from a secondary approved vendor approved in conjunction with this bid. These liquidated damages are at the discretion of the Commissioner.

#### CONFLICT OF INTEREST

If there is no conflict of interest, then the vendor should simply sign the form.

END OF ADDENDUM.

SURCHARGE ONLY APPLIES TO HAUL NOT MATERIAL

Note

The applicable weekly fuel surcharge percentage shall be determined by referencing to the results of the survey for diesel fuel pricing conducted every Monday by the Department of Energy—Energy Information Administration. Diesel prices reported on Monday applied to the above "scale" indicates the surcharge to be in effect for that week.
