Art's Trucks & Equipment has been a leader in the truck and equipment industry for over 55 years. We pride ourselves in providing quality, pre-owned trucks and equipment. We do this by performing an extensive, multi-point inspection on every truck we sell. Throughout the years we have learned the needs of our clients and how to provide them with the best service and assistance. We have well trained technicians with several decades of experience to make any necessary repairs to the trucks before the sale. Our number one goal is to offer our clients the best prices for our truck and equipment inventory and maintain the highest standards of value for our customers.

A quick trip to McAllen is possible through United & American Airlines. They both have several daily flights to McAllen. Art's Trucks & Equipment is conveniently located just 3 miles from the McAllen Miller International Airport. A salesman will pick you up at the airport when your flight arrives.

Many of our customers purchase from us sight unseen. Fortunately, we can provide you with detailed pictures/videos of the truck to help in facilitating your decision on the truck you intend to purchase.

We work with multiple, third-party commercial loan companies that can help get you financed and into a truck with relative ease and quickness.

We'd be happy to quote freight to any destination within the continental U.S., including any port should you be exporting the truck to another country.
