

# **Texas Commission on Environmental Quality (TERP) Grants for Heavy-Duty Vehicles and Equipment**

**The Rebate Grants Program provides funding to upgrade or replace diesel heavy-duty vehicles and equipment in certain areas of Texas.**

We expect to begin accepting applications on or after May 21, 2024.

**Limited funding available.** Based on criteria described in the Request for Grant Applications, we will award grants for eligible applications in the order we receive them

## **Eligible applicants**

- Individuals, state and local governments, corporations, or any other legal entity.

## **Eligible projects**

- Replacing vehicles or equipment with newer models.
- Repowering vehicles or equipment.
- Purchasing or leasing new zero-emission or near zero-emission vehicles.
- Installing electric-powered equipment on vehicles or equipment.

Applications for any of the above may include a request for additional funding for alternative fuel infrastructure. Allowable alternative fuels are:

- electricity
- hydrogen
- compressed natural gas (CNG)
- liquified natural gas (LNG)
- propane (LPG)
- methanol

Examples of eligible vehicles and equipment:

- agricultural tractors
- haul trucks
- rubber tire loaders
- cement mixers
- garbage trucks
- dump trucks

We will provide a full list when we begin accepting applications.
