

The Department Of Emergency Management

As we know Hurricane Beryl made landfall this morning, moving north/northeast. Titus County is in the path of this Hurricane. Beryl will downgrade to a Tropical Storm. NWS is predicting 30 to 40 MPH wind and 4" to 7" of water. Main threat down trees, power lines, and flooding.

Governor Abbott Office has Declared A State Of Disaster, 81 county's are in this State Of Disaster, Titus is one of them.

I am asking Judge Kent Cooper to Declare a Disaster for Titus County today so that we can get our Disaster Summary sent to the DSO, Department of State Operations, also the Governors Office. The Judge can declare a disaster for 7 days before it will need to be voted on by the commissioners. The 7 days will give us time to see what damages we mite have.

iSTAT and pSTAT reporting will use ID 24-0016 07 Tropical Weather.

Thank You

Jerry Ward

Titus County EMC
